## NEW CURRICULUM 2014

As many of you may have read or heard September 2014 sees the introduction of the new curriculum in schools. It is designed to provide children with an introduction to essential knowledge and helps engender an appreciation of human creativity and achievement through teaching programmes of study for each National Curriculum subject. Schools are free to choose how they organise their school day as long as the programmes of study are taught.

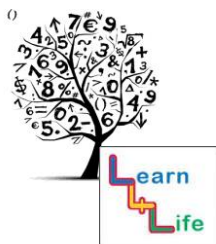

At KLS we have chosen to plan our curriculum from the Essentials Curriculum by Chris Quigley Education Ltd. In order to do this we have agreed to stay with our cross-curricular learning adventures but these will not be governed by structured 'terms' instead they will last for a varying number of weeks depending on what is being taught within each one. In addition, we aim to ensure

the children are even more involved in input into planning and guiding where their learning takes them. Therefore, when you receive learning adventures these may be subject to change as the children may lead the learning down a route not initially planned. As long as we, as teachers, ensure that the 'matters, skills and processes' from the National Curriculum are taught, the interests of the children and the focus on creativity and challenging themselves is part of our fundamental belief at King's Lodge School.

The only subjects that are planned separately to the Chris Quigley Essentials Curriculum are:

Mathematics - Wiltshire guidance documents (which have been devised by a working party inc. Miss Woon from KLS)

RE - Wiltshire Discover RE Scheme

PSHE - Learn for Life Scheme

PE - Real PE Scheme

As a staff we have now devised what we call 'Curriculum Drivers' (4Cs) - the skills we are striving to develop in our children so they leave KLS with these attributes - CURIOSITY, CHALLENGE, COMMUNITY & CHOICES. These will be highlighted on the Learning Adventure sheets and are included in this section of the website. In addition, each year group has a parent booklet available outlining the end of year expectations for your child, as well as maths, English and SEN information leaflets.

*Should you wish for any further information regarding the new curriculum please do not hesitate to see your child's classteacher.*
