

Kings Lodge School

Curriculum Information

In 2014, the DfE introduced a new National Curriculum, replacing the previous document. The National Curriculum is designed to provide children with an introduction to essential knowledge and helps engender an appreciation of human creativity and achievement through teaching programmes of study for each National Curriculum subject. Schools are free to choose how they organise their school day as long as the programmes of study are taught.

At KLS we teach through Learning Adventures. These are cross-curricular themes which last for a number of weeks and aim to link children's learning experience across subjects. To support us in covering the National Curriculum we use a planning scheme called Prospectus. This provides exciting, high quality learning experiences that we hope will inspire and fully engage children.

Some subjects are planned separately from the Prospectus curriculum materials. These are:

Mathematics – for this we use a number of different resources including White Rose maths. This leads to progression both within and between year groups.

English – Although there are a number of activities suggested by Prospectus for English, we use our Classroom Monitor assessment tool to identify gaps in learning.

RE – Wiltshire Discover RE scheme

PSHE – Learn4Life Scheme

PE – Real PE scheme

Each term we will share what aspects of the curriculum are being taught through our Learning Adventures. Should you wish for any further information regarding the curriculum please do not hesitate to see your child's class teacher.
